

March 28, 2012

Mr. McPartlin:

I wanted to send you a quick letter stating how impressed I am with your drainage system. Since the installation of the Parjana water pump system into the grounds of Coleman A. Young International Airport in February, its performance has far exceeded expectations. I have been watching the area where the system was installed and the water is definitely receding. In comparison to other areas that we have drainage issues, we still have standing water, so I believe that your system is hard at work.

I also wanted to emphasize that I truly appreciate the professionalism of both your partners, and staff. Your company has always been on time, and your project was executed in a diligent and efficient manner. To date where your system is installed we no longer have standing water and are looking forward to seeing the pumping system fully activated.

Please let this letter serve as a recommendation of your product, and I hope we can do business in the future.

Sincerely,

A handwritten signature in black ink, appearing to be the name of the General Manager, written over a horizontal line.

General Manager
Coleman A. Young International Airport
